Create your look

ALFRESCO

polytec's contemporary **ALFRESCO** range is designed to transform an outdoor cooking and casual dining space into a functional, practical and legitimate additional room. In essence the same quality cabinetry and aesthetic from the neighbouring indoor kitchen can be seamlessly carried through to a covered outdoor area – extending the liveability and usability of all available spaces.

ALFRESCO doors are hardy and water resistant, the 5mm/55mm **ALUMINIUM** frames can be selected in either sleek Satin Aluminium or Brushed Stainless finish to coordinate with stainless steel appliances and barbecues. The 5mm **COMPACT** laminate inserts are made from a high impact resistant and a waterproof material that will stay in great shape for many years.

COMPACT laminate is the ultimate in long lasting, low maintenance decorative panels for the most demanding, hard working environments. Totally impervious to water, it has a beautiful appearance with outstanding stain and wear resistance and a distinctive black core. Offering the look of timber, but without the maintenance required to keep it looking it's best.

EVABoard is manufactured using a 16mm High Performance MDF board. The innovative weather resilient nature of **EVABoard** makes it the ideal product to be used in areas that may be exposed to light moisture such as kitchens, bathrooms, laundries, covered alfresco areas, partitioning and doors.

polytec's **ALFRESCO** range come with a 7 year warranty, giving you peace of mind.

GREEN

polytec is committed to an eco-friendly and sustainable environment. It is an intrinsic part of the way we do business daily. Our decisions are made so that they have minimum negative impact on the environment.

Our product is manufactured from managed and renewable plantation pine, and on request can be purchased as Responsible Wood chain of custody certified. All **polytec** board products are manufactured from E0 or E1 MDF.

We manage waste responsibly through numerous recycling programs including aluminium and metals, used oils and timber waste is recycled back into energy. We subscribe to local government environmental initiatives and voluntary audits as well as our own internal Energy and Carbon Management Policy (ECM), which aligns with the Australian Government's Energy Efficiency Opportunities (EEO) program.

polytec doors and benchtops are Australian Made & Owned.

CARE

The surface of **polytec**'s **COMPACT** laminate is made from a stain-resistant melamine based resin. The toughness and high impermeability of this surface means that **polytec**'s **COMPACT** laminate should require no more than wiping with a soft cloth, dampened with plain water or a household detergent mix to remove all common household spills.

polytec's **EVABoard** panels are made from a High Performance Medium Density Fibreboard (HP MDF), but as with many wood based panels, they are not waterproof. Care should be taken to wipe up spills immediately, ensuring the doors are not exposed to high or continuous levels of moisture, steam and humidity.

For more stubborn stains use a mild household cleaning spray. Always ensure you refer to the recommendations provided by the manufacturer of the cleaning product before use.

By following these simple steps you should retain a beautiful surface for many years.

Visit www.polytec.com.au for specific care and cleaning information. Darker colours will show superficial wear and tear more readily than lighter coloured surfaces and require more care and maintenance.

The colours and details shown in this brochure are to the highest standards in printing. However, they should only be used as an indication of actual product colour. To order your free colour sample visit www.polytec.com.au. **polytec** swatches and samples represent a small area of the overall colour structure, to view the large colour sample, visit www.polytec.com.au

The use of our current colour samples gives the colour and finish that a customer would expect to receive. **polytec** does not guarantee exact colour matches across product ranges due to colour variation in each product group.
